RECEIVED

SEP 10 1992

REQUEST FOR CORRECTION OF OFFICE ACTION
OR WITHDRAWAL OF FINALITY OF REJECTION

Honorable Commissioner of
Patents & Trademarks
Washington, D.C. 20231

Dear Sir:

We are in receipt of an Examiner's Action dated August 26, 1992 presenting a rejection of the single claim which is presently under examination. On the cover page of that action, the box marked "this action is made final" has been checked, although the body of the action itself does not indicate that the rejection has been made final.

The office action contains a rejection of the single claim under examination on the basis of a newly cited reference.

The office action of August 26, 1992, is the first action on the merits in the present application. The claim under examination is a method claim and the parent to the present application did not include any method claims. Method claim 23 was presented for the first time in this application. The Examiner has already indicated that the invention defined in the claims presented in the parent application is distinct from the claim presently under examination.

Under these circumstances, i.e. a first action on the merits directed to a claim distinct from those presented in the parent application, the rejection could not properly have been made final. It is possible that the notation on the cover page of the action

PATENT
PD-8811FWC

was an error. In this case, it is asked that the Examiner confirm that the office action does not contain a final rejection.

Alternatively, for reasons advanced above, it is requested that the finality of the rejection presented in that action be withdrawn, as premature.

9/3/92
Date

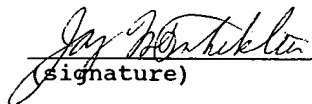

Respectfully submitted,

Jay M. Finkelstein, 21,082
